

# ADDITIONAL NICU SUPPORT IS HERE.

Your employer is proud to offer **free access to Milk Stork NICU Support Kits** to help support you and your family during your NICU journey.

Breast milk plays a critical role in supporting premature infants, strengthening immune systems and aiding development. Managing pumping, storage, and transport can be challenging, especially while balancing work, home, and hospital visits. Milk Stork is designed to ease that burden so you can focus on your baby and your family.

Recommended by neonatal nurses and lactation consultants, Milk Stork provides reliable, medical-grade solutions to safely refrigerate and transport breast milk when it matters most.

## HOW IT WORKS

### 1 Access your benefit

Visit [milkstork.com/my-account](https://milkstork.com/my-account) to create an account and then select "Use My Benefit" to navigate to your Employee Ordering Portal. This benefit is fully covered by your employer.

### 2 Choose your NICU Support Kit

Select the kit that best fits your needs and place your order. Ship it to the hospital, your home, or another convenient location.

### 3 Get the tools you need

All NICU Support Kits include a Milk Cubby for refrigerating freshly pumped milk on the go. Additional Milk Stork products covered by your employer are available in your Employee Ordering Portal.

## WHY MILK STORK

### Eases logistical stress

Breast milk must be kept at 40 degrees Fahrenheit or colder to preserve its benefits. Milk Stork solutions are built to keep milk safe during commutes and hospital stays, even in warm weather.

### Reduces mental load

With dependable, medical-grade coolers and easy-to-follow guidance, you can trust that your milk is protected, allowing you to focus on your baby instead of logistics.

### Supports you beyond milk transport

NICU Support Kits also include thoughtfully curated tools to help you care for yourself while caring for your baby.

**This benefit is free to you.** Your employer offers Milk Stork because they support you as a working parent and understand the unique challenges of the NICU journey.

# NICU SUPPORT KIT OPTIONS
